

3D Fence model PCS
Panel :

The 3D wire panels made by Van Merksteijn excel both in stability and durability. This high quality is ensured by the use of top-quality materials and their careful processing using state-of-the-art production techniques. The 3D profiled panel is an aesthetically attractive and at the same time cost-efficient alternative for classic double wire panels. The special 3D technique ensures that in spite of its limited weight this profiled panel is still astoundingly stable.

Technical specifications:

Horizontal wires:	1 x \varnothing 5 mm
Vertical wires:	1 x \varnothing 5 mm
Length:	2.508 mm
Height:	see table
Mesh size:	50 x 200 mm (in the 3D part 50 x 100 mm)

Posts PCS:

The PCS fence post system ensures in combination with our deco fence panels a very easy assembly and decorative system. The synthetic clips of this post system also reduces noise. By using cover profiles in stainless steel instead of a clamp bar, this system offers a cost efficient and simple alternative to the PCK fence post.
